Special considerations for each plan type

If you are enrolling in an HMO plan

When you enroll in an HMO plan, you and your dependents must choose a primary care physician (PCP) within 15 miles or a 30-minute drive* from where you live or work. You can either search for your PCP using Blue Shield of California's *Find a Doctor* tool found at blueshieldca.com, or call Member Services to request a directory. If you do not select a PCP when you enroll, we will assign you one. You can then change your PCP at any time. PCPs provide routine checkups, immunizations and urgent care and refer you to specialists.

If you are enrolling in a PPO plan

As a PPO plan member, you can choose your own doctor and do not need a referral to see a specialist. Choosing a provider in the PPO networks can save you money and ensure that you receive the highest level of benefits available to you.

When you visit doctors outside the PPO network, you may be responsible for higher copayments plus any charges in excess of Blue Shield's allowed amount for the services.

If you access care outside California

PPO members who access care outside California may do so through the BlueCard® Program Network, which includes access to more than 92% of doctors and 96% of hospitals nationwide. Whenever possible, you should choose a doctor or hospital from the BlueCard network to save you money and ensure you receive the highest level of benefits available to you. When you visit doctors who are not in the BlueCard network, you may be responsible for higher copayments plus any charges in excess of Blue Shield's allowed amount for the services.
